26 JAN 1965

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Evaluation of UFO's

1. This memorandum is for your information in response to your request.

2. As you know, there has been a recent spate of reportedly publicized UFO reports during the past 18 months. These include: the July 1964 Mountain, California, incident in which the UFO was later identified as an aircraft; the UFO's reportedly associated with two Cerini launching in April 1964 which probably were due to fragments causing radar reflection; and the Elkton, Maryland, incident in December 1964, in which two objects were apparently tracked by radar, but later analysis attributed the sighting to malfunctioning radar circuitry. Evaluation of these and other reported phenomena reveals no evidence that UFO's are of foreign origin or are a threat to the security of the United States.

3. The Office of Scientific Intelligence/ID-SMT monitors reports of UFO's, including the official Air Force investigation reports, and concurs with the Air Force conclusions, which are unclassified and available to scientific investigators. Of some 621 UFO reports investigated during 1964, only 32 are classed as unidentified; 11 investigations are still pending. Attached are the official Air Force statistics for the two period 1964-1963 by year and for 1964 by month.

*J. Donald A. C. Johnson*  
JOHNSON F. CHAMBERSAIN  
Assistant Director  
Scientific Intelligence

CONFIDENTIAL:

*R. Green W. Wilson*

26 JAN 1965

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Evaluation of UFO's

1. This memorandum is for your information in response to your request.

2. As you know, there has been a recent spate of reports of UFO's (unidentified flying objects) in news media. Notable publicized UFO reports during the past 18 months include: the July 1964 Sunnyvale, California, incident in which the UFO was later identified as an aircraft; the UFO's reportedly associated with two Gemini astronauts in April 1964 which probably were due to fragments causing radar reflection; and the Patuxent, Maryland, incident in December 1964, in which two objects were apparently tracked by radar, but later analysis attributed the sighting to malfunctioning radar circuitry. Evaluation of these and other reported phenomena reveals no evidence that UFO's are of foreign origin or are a threat to the security of the United States.

3. The Office of Scientific Intelligence/ID/CIA monitors reports of UFO's, including the official Air Force investigation reports, and concurs with the Air Force conclusions, which are unclassified and available to scientific investigators. Of some 300 UFO reports investigated during 1964, only 3% are classified as unidentified; 11 investigations are still pending. Attached are the official Air Force statistics for the two periods 1964-1963 by year and for 1964 by month.

*E. Donald F. Chambrahan*  
EDWARD F. CHAMBERLAIN  
Acting Director  
Scientific Intelligence

CONFIRMATION:

*George W. Wilson*  
George W. Wilson  
Deputy Director (Science and Technology)
